## Elite Roofing Supply Opens Third Location

June 9, 2014

SAN JOSE, Calif. — [Elite Roofing Supply \(ERS\)](#) announced that it has opened its third store, which is located in Corona, Ca. The Corona yard will be managed by Elite’s newest partner, Jill Miller. According to ERS President Brian Torry, Miller is an industry veteran with more than 27 years of experience in the distribution business, specifically in the Inland Empire market. “After working for a national company for a number of years, Jill is excited to start her own yard where her passion for the roofing community can be demonstrated,” Torry said. “Jill joined the Elite team because she saw a group of people with similar beliefs with the same passion for people.”

The address of the newest location is 370 Meyer Circle, Unit 102, Corona, CA 92879. The Corona facility joins the company’s two other California locations, which are in San Jose and Orange County. Elite Roofing Supply was founded by Brian Torry, Scott DeLine, Greg Russell, and Sarah Weiss in early 2013. According to Torry, the founding partners tired of working for national distributors who had lost the “mom and pop” feel they had enjoyed earlier in their careers. “By opening the Corona store, we aren’t just adding a new location but more importantly a strong roofing community member in Jill Miller as a partner that shares our passion and belief in relationships,” said Torry. “We welcome Jill and her family to ERS and look forward to her future success”.
