April 30, 2020

To Our Valued Customers:

Per the extension of California's Shelter in Place Order published on April 29, 2020, construction projects may now resume if certain protocols are put in place in the counties of Alameda, Contra Costa, Marin, San Francisco, San Mateo and Santa Clara, as well as the city of Berkeley. Elite is here to help as you work to implement these measures. Here is an overview of the latest Shelter in Place extension, as well as the Safety Protocols recently released for small and large construction projects in your area (we have attached the official Safety Protocols for your review/records):

Changes Affecting Construction

1. Construction projects (both residential and commercial) may resume, provided they comply with the construction project safety protocols
2. Outdoor businesses may resume operations, and residents may visit those businesses to obtain goods and services. These businesses are expected to comply with all social distancing requirements.

Small Construction Project Safety Protocol

1. Which projects does this apply to?
 - a. Residential projects consisting of 10 units or less
 - b. Commercial projects consisting of 20,000 square feet of floor area or less
 - c. Mixed-use projects
 - d. All other construction projects not subject to the Large Construction Project Safety Protocol

Large Construction Project Safety Protocol

1. Which projects does this apply to?
 - a. Residential construction projects consisting of more than 10 units
 - b. Commercial construction projects consisting of more than 20,000 square feet of floor area
 - c. Construction of Essential Infrastructure – any project that requires five or more workers at the jobsite at any one time

Please know that Elite Roofing Supply branches remain open and ready to serve you! We appreciate you and aim to do everything in our power to help your business thrive.

Sincerely,

Your Elite Team
